GOOD CAUSE FOR ALARM

These Figures Will Make Alma People Take Notice

Deaths from kidney disease have increased 72 per cent in twenty years.

People overdo nowadays in so many ways that the constant filtering of poisoned blood weakens the kidneys.

Beware of fatal Bright's disease. When backache or urinary ills suggest weak kidneys, use Doan's Kidney Pills, live carefully, take things easy and avoid heavy eating.

Doan's Kidney Pills command confidence, for no other kidney remedy is so widely used or so generally successful.

Home endorsement is the best proof of merit. Read this Alma resident's story.

W. J. Washburn, retired farmer, R. F. D. No. 4 Alma, says: "I suffered from kidney trouble for several years. My kidneys were irregular in action and some nights I had to get up several times to pass the kidney secretions. I had dull pains in my loins and my back got very lame. Doan's Kidney Pills have never failed to relieve the lameness in my back and regulate the action of my kidneys. I always keep Doan's Kidney Pills in the house."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Washburn had. Foster-Milburn Co., Props., Buffalo, N. Y.

Impossible To Get So Much Motor Car Value For The Money

WE FIND this is the attitude of many people who come into our salesroom—before they know anything about the Maxwell.

Not until the Maxwell is shown and demonstrated to them—until they sit in it and examine the finish—until they ride in it—or perhaps not until they drive it themselves, do they realize what a tremendous value is offered in the Maxwell car.

It is not unusual that Maxwell value should not be known to everyone, because it is uncommon to find such a car for a good margin more than the Maxwell price.

The Maxwell stands absolutely alone in a highly competitive field, for the amount of value it offers for the price.

Appearance—The lines of the Maxwell are decidedly attractive. There is no break in the contour from the radiator to the back of the car. The fenders are gracefully shaped. All metal parts are enameled or nickel-plated. The upholstery is deep and well-finished. From any angle it is a car that the owner can be proud of.

Motor—The engine in the Maxwell car is not equalled by any other four-cylinder engine of its size. And we know of larger and more expensive cars that have less able power plants. The Maxwell engine carries its load through mud and sand or over the steepest grades without a falter.

Quality—The materials in the Maxwell car are the best that can be bought and the workmanship that turns them into finished parts is no less excellent. It is only the large production of the Maxwell factories that makes it possible to put such quality of materials and workmanship into a car selling at the Maxwell price.

Economy—With its other attractive features, the Maxwell is a most economical car to own. Owners get 22 to 25 miles per gallon of gasoline and 8,000 to 12,000 miles per set of tires. And the car is so durably built that repair expense is negligible.

We are sure you want a car such as we have described the Maxwell to be. If you will give us a few minutes of your time we are sure we can convince you that the Maxwell Car is an exceptional value. Come in today.
